Újházy chicken soup... Or sour cherry soup.
It's cold and sweet.

Emily: I'll try that!

Marci: And then, try breaded fried pork or chicken.
Stuffed cabbage is very good too.

If you choose the goulash or the bean soup,
I think eat pasta with cottage cheese then.

It's served with sour cream and crispy bacon.

Marilyn: Great! I'd like to try some dessert too.

Marci: What about Somlói sponge cake or strudel
with cottage cheese or cabbage or apples
or sour cherry or poppyseed...?

4 Which is true about Sir Isaac Newton? Listen and check.

Sir Isaac Newton was born on Christmas Day in 1642. He didn't do well at school.

The teachers thought he was stupid. He left school at the age of 12.

He worked on the family farm, but he hated it. When he was 18, he went to Cambridge University. He became Professor of Mathematics in 1669. He discovered a lot of things: gravity, for example, and he invented the cat flap.

An interesting story: after he became a famous scientist, a woman asked him to find her lost purse. He said 'abracadabra' and sent her to the Royal Hospital. And there she found the purse!

Some years later, he went mad. Nobody knew why. Then he got better and went on working until he died at the age of 84. He is buried in Westminster Abbey.
